Request for Network Device Interpretation

Requestor Name and Organization: Fethi Nasraoui

Status: ☐ *On-going certification* ☒ *Preparatory/Other*

Submittal date: *January 26, 2026*

Certification deadline dates: *N/A*

SFR or Section of cPP in question: NDcPP v4.0.

Supporting document testing in question: NDcPP v4.0.

Issue:

It is unclear how to submit technical queries regarding the new functional packages, specifically the TLS and X509 packages, used by NDcPP v4.0.

Proposed Resolution:

As these packages are NIAP-maintained, we assume that RFIs, should be submitted through the NIAP TRRT process.

Rationale:

See Proposed Resolution above
